1. 2018-2019 Home Care - NATSIFAC Program Expansion Grant Opportunity Processes

1.1 About the grant program
The NATSIFAC Program is administered outside of the Aged Care Act 1997 and is part of the Australian Government’s strategy to improve the quality of, and access to aged care services for older Aboriginal and Torres Strait Islander people.

The objectives are to:
• deliver a range of services to meet the changing aged care needs of the community;
• provide aged care services to older Aboriginal and Torres Strait Islander people close to home and community;
• improve access to aged care services for Aboriginal and Torres Strait Islander people;
• improve the quality of culturally appropriate aged care services for Aboriginal and Torres Strait Islander people; and
• develop financially viable cost-effective and co-ordinated services outside of the existing mainstream programs.

The NATSIFAC Program funds organisations to provide flexible, culturally appropriate aged care to older Aboriginal and Torres Strait Islander people close to their home and/or community.

Delivering Culturally Appropriate Aged Care Services

Service providers funded under NATSIFAC Program are required to provide aged care services that meet the needs of the individual care recipient.

Aged care services must provide good quality, culturally appropriate care that is both acceptable to and accessible by the community. The service provider must have policies, procedures and practices in place to ensure the service delivers flexible, culturally appropriate care, which meets aged care standards. The service provider should also ensure that individual care recipient interests, customs, beliefs and cultural backgrounds are valued and nurtured, and that the service assists care recipients to stay connected with their family and community.

The delivery of culturally appropriate aged care is dependent on a variety of elements such as:

• having appropriate buildings to allow for cultural activities, family visits, ceremonies and take into account Aboriginal and Torres Strait Islander customs;
• ensuring a comfortable environment and surroundings (e.g. access to the natural environment or outdoor access and bushland gardens, Aboriginal and Torres Strait Islander artefacts);
• employment or engagement of Aboriginal or Torres Strait Islander people;
• participation by the local community in planning and providing aged care;
• encouraging and assisting care recipients to remain engaged with their community (e.g. by participating in traditional events);
• respecting cultural traditions (e.g., men’s and women’s business); and
• providing the services in a culturally safe way.

Cultural safety is about recognising, respecting and nurturing the unique cultural identity of Aboriginal and Torres Strait Islander people and meeting their needs, expectations and rights. It is one of the overarching principles to be incorporated in all aspects of service delivery and quality systems for the NATSIFAC Program.

We administer the program according to the Commonwealth Grants Rules and Guidelines 2017 (CGRGs).1

8. Assessment of grant applications

---

3 See glossary for an explanation of ‘value with money’.
The assessment committee will review the assessed and quality assured application and compare it to other eligible applications before recommending which grant activities to fund. The assessment committee will be made up of departmental officers and may include representatives from the state and territories. All applications that satisfy the eligibility requirements set out in Section 3 will be assessed against each assessment criteria and rated against the Numerical Scoring Scale below. An overall rating for each application based on the Numerical Scoring Scale is obtained by totalling the scores for each criterion.

normal course of the department’s business.

If the assessment process identifies unintentional errors of form in an application, the applicant may be contacted to correct or clarify the errors, but they will not be permitted to make any material alteration or addition.

A conflict of interest arises where a person makes a decision or exercises power in any way that may be, or may be perceived to be, influenced by either professional, commercial or personal interests or associations. Organisations will need to specify any real or perceived conflicts of interest in relation to this grant program in Section 2 of this application. Conflicts of interest identified in the assessment of applications will be dealt in accordance with the guideline documentation for this program.

The assessment committee will identify those applications that will best meet the policy objectives and priority of the NATSIFAC Program and make recommendations to the Departmental Delegate which applications to approve for a grant.

8.2 Who will approve grants?

The Assistant Secretary, Residential and Flexible Care Branch, Residential and Flexible Care Division decides which grants to approve taking into account the recommendations of the committee and the availability of grant funds.

The Assistant Secretary’s decision is final in all matters, including:

- the approval of the grant
- the grant funding amount to be awarded

The Assistant Secretary will not approve funding if there is insufficient program funding available across relevant financial years for the program, or if the application does not represent value with money.

There is no appeal mechanism for decisions to approve or not approve a grant.

9. Notification of application outcomes

We will advise you of the outcome of your application in writing. If you are successful, we will advise you of any specific conditions attached to the grant.
9.1 Feedback on your application

If you are successful, you must enter into a legally binding grant agreement with the Commonwealth represented by the department and undertake grant activities in accordance with the NATSIFAC Program Manual, grant agreement, which includes the general grant conditions, and supplementary conditions. We must execute a grant agreement with you before we can make any payments. We are not responsible for any of your expenditure until a grant agreement is executed. If you choose to start delivering home care services under the NATSIFAC Program before you have an executed grant agreement, you do so at your own risk.

The Commonwealth may recover grant funds if there is a breach of the grant agreement.

Standard grant agreement

The department will use the Commonwealth Standard Grant Agreement and supplementary conditions for grantees receiving funding. You will have 30 days from the date of a written offer to execute this grant agreement with the Commonwealth (‘execute’ means both you and the Commonwealth have signed the agreement). During this time, we will work with you to finalise details. The offer may lapse if both parties do not sign the grant agreement within this time. Under certain circumstances, we may extend this period. We base the approval of your grant on the information you provide in your application. We will review any required changes to these details to ensure they do not impact the delivery of NATSIFAC Program Home Care Services as approved by the Assistant Secretary.

The successful applicant must undertake grant activities in accordance with the NATSIFAC Program Manual, and the funding agreement, which includes the general grant conditions, and supplementary conditions.

12.1.3 Audited financial acquittal report
You will need to provide an independently audited financial acquittal report. A financial acquittal report will verify that you spent the grant in accordance with the grant agreement. Compliance visits and record keeping

12.2 Compliance visits and record keeping
The Australian Government is committed to high quality care for older Australians and considers the health, safety and welfare of aged care recipients a high priority. As part of reforms to the aged care system, the Department of Health has worked with the sector to develop a single set of quality standards for all aged care services.

Subject to parliamentary processes, from 1 July 2019, this new single set of standards, called the Aged Care Quality Standards, will replace the:

- Accreditation Standards;
- Home Care Standards;
- National Aboriginal and Torres Strait Islander Flexible Aged Care Program Quality Framework Standards; and
- Transition Care Standards.

Transition to the new Aged Care Quality Standards has begun. Providers will continue to be assessed against the current standards until 30 June 2019, with assessment and monitoring against the new Aged Care Quality Standards starting from 1 July 2019.

The Aged Care Quality Standards will:

- increase the focus on quality outcomes for consumers
- recognise the diversity of service providers and consumers
- better target assessment activities based on risk
- reflect best practice regulation.

Service providers will be required to meet the new Aged Care Quality Standards.

The Australian Aged Care Quality Agency (the Quality Agency) undertakes quality reviews of service providers funded under the NATSIFAC Program. We may also visit you to review your compliance with the grant agreement. We may also inspect the records you are required to keep under the grant agreement. We will provide you with reasonable notice of any compliance visit.

12.3 Evaluation
We will evaluate your performance in delivering services under the NATSIFAC Program through six monthly performance reports to measure how well the grant recipient is meeting the objectives and outcomes of the NATSIFAC Program.

13. Probity
The Australian Government will make sure that the grant opportunity process is fair, according to the published guidelines, incorporates appropriate safeguards against fraud, unlawful activities and other inappropriate conduct and is consistent with the CGRGs.

13.1 Enquiries and feedback
