

### Updated Occupancy & RAD Information

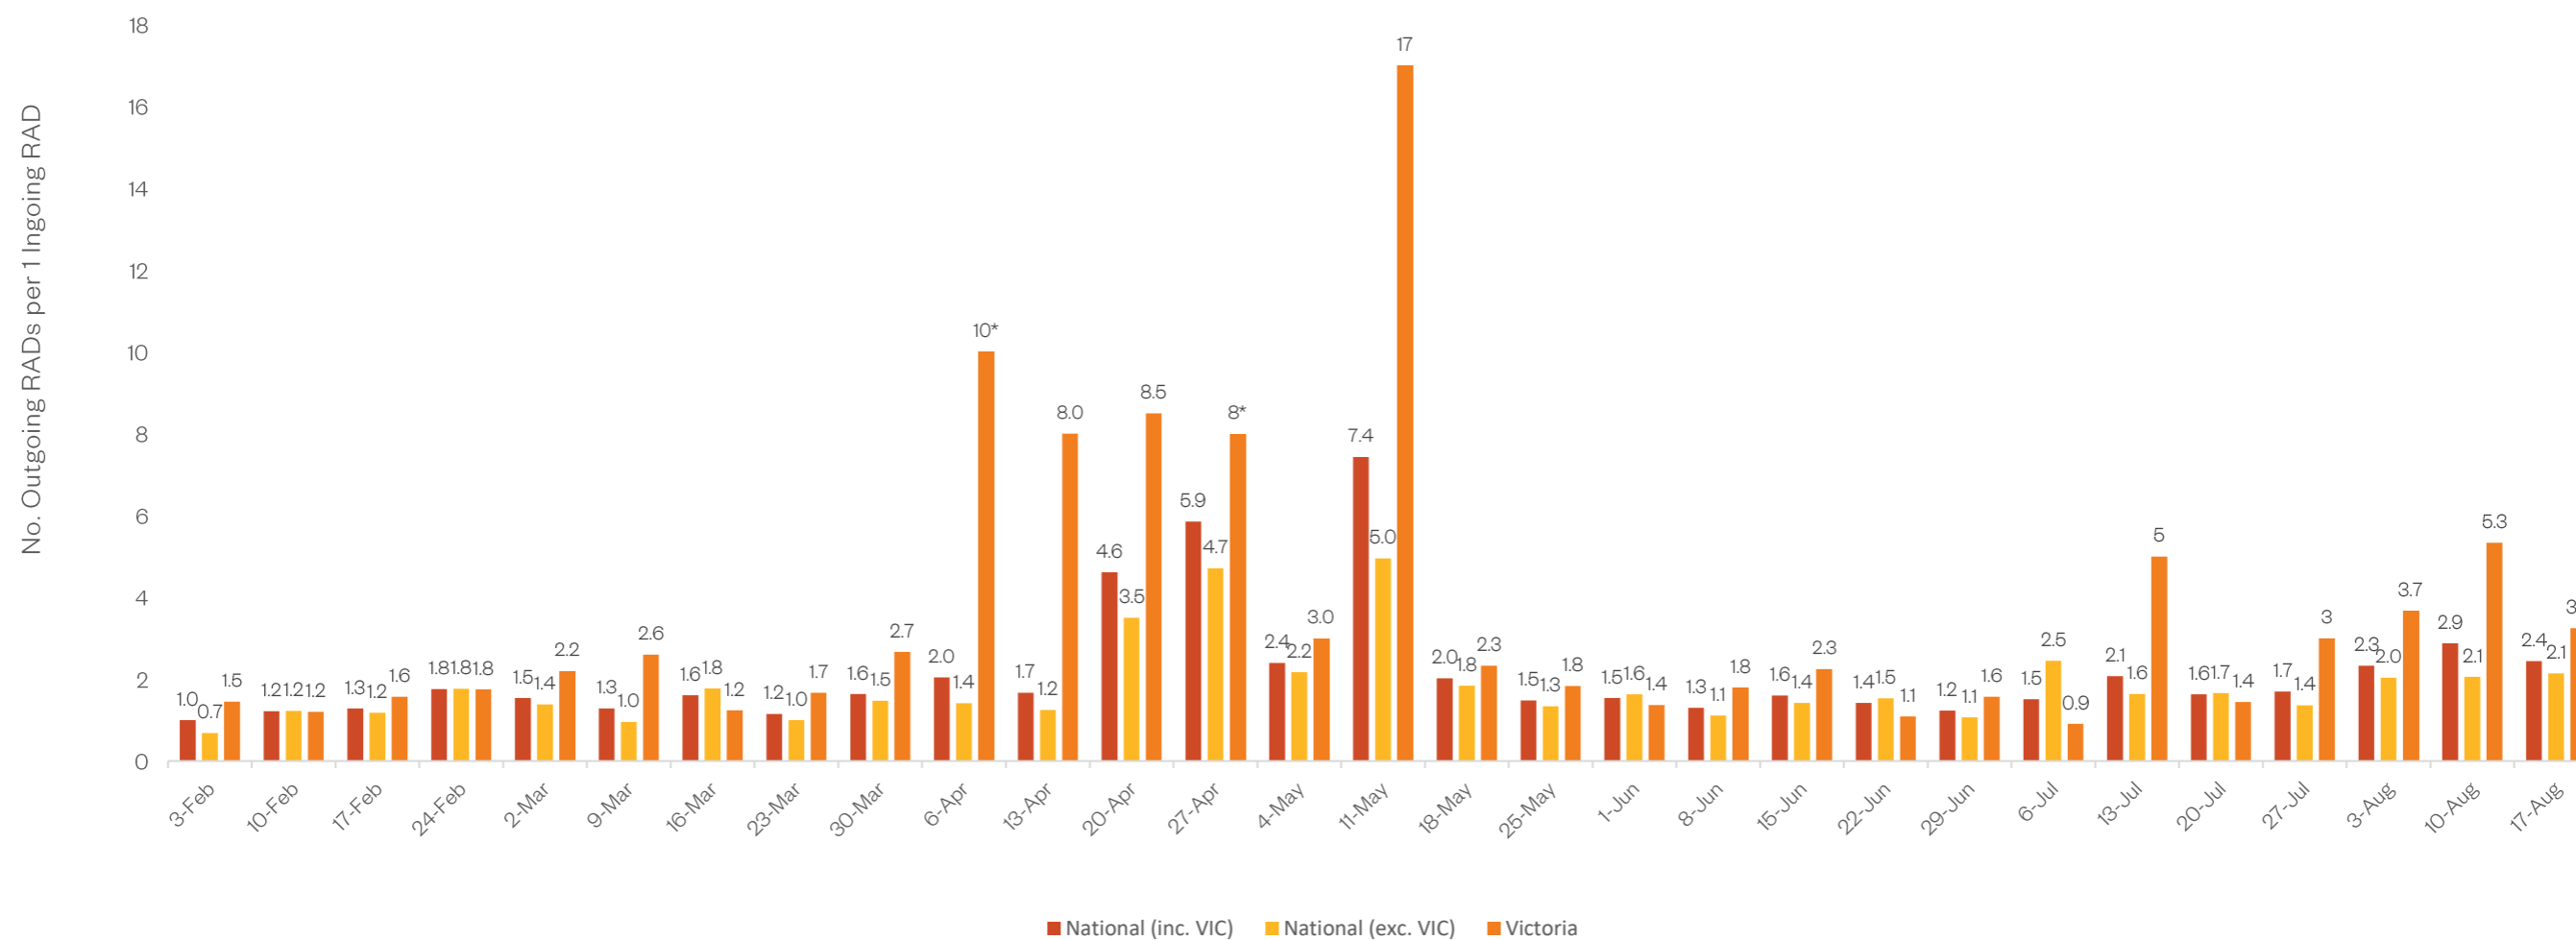

**Graph 1: Occupancy – National & Victoria, 3 February to 23 August 2020**

**Graph 2: RAD Ratio – Weekly Average Number of Outgoing RADs per 1 Ingoing RAD, February to August 2020**

The graph above (Graph2) illustrates the average weekly outgoing RAD per 1 incoming RAD for each month between February to August 2020. Information has been provided on a national basis as well as specifically for Victoria. For example, for August for every 1 RAD received from a new ingoing resident, 4.1 RAD paying residents would be departing on average per week in Victoria.

**Graph 3: RAD Ratio – Average Outgoing RADs per 1 Ingoing RAD, 3 February to 23 August 2020**

*Note: \* No incoming RAD was received during this week*

The graph above (Graph 3) illustrates the weekly outgoing RAD per one incoming RAD for the period 3 February 2020 to 17 August 2020. Information has been provided on a national basis as well as specifically for Victoria. For example, during the week commencing 17 August 2020, nationally there was approximately 2.4 outgoing RAD paying residents for every 1 ingoing resident who decided to pay a RAD.
